Your Biggest Impact Yet!

You Donate Donation Matched Donation Doubles

Double Your Donation >>

Dear <Name>,

A few weeks ago, we launched our Annual Appeal and took you on a journey of how your support fuels change at St Jude's. Today, I'm excited to share that some generous supporters have offered our biggest match yet! All donations will now be matched, DOLLAR FOR DOLLAR until we reach AU\$800k!

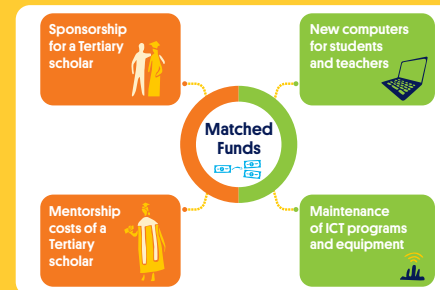

This means your donations are not only tax deductible, they are also doubled. You give AU\$5 it becomes AU\$10, and AU\$10 now becomes AU\$20!

Double Your Donation >>

The matched funds will be directed towards our ICT program and the Beyond St Jude's Sponsorship Program (BSJSP) which supports our Tertiary scholars with higher education. You've already seen what your support can do in removing barriers to education through **Access**, broadening our students' horizons through **Opportunity**, and finally setting our Tertiary graduates off to a thriving future through **Freedom**.

Today, it means twice the impact

So step forward and double the change with your donation!

Thank you for being part of our journey so far. Feel free to forward this email to anyone who may be interested in fuelling lasting impact through free, quality education.

Many thanks,

Gemma

Fuelling Change Through Freedom
Broadening Horizons Through

Mentorship Debt-Free Community

Join the Journey >>

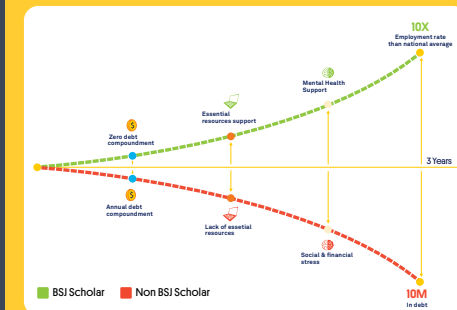

Dear <Name>,

You may be wondering how your support to St Jude's fuels change through freedom. Well, it's by relieving the financial, social, mental stress on our Beyond St Jude's (BSJ) tertiary scholars. Your BSJ sponsorship supports scholars with mental health, learning resources, and living expenses, allowing them to graduate debt-free. This sets them on the path to thrive in their careers and entrepreneurial endeavours.

Join the Journey >>

So, what does this mean?

It means Freedom! Freedom to take risks and start businesses, freedom to pursue fulfilling careers, and the freedom to give back to their families and community. By comparison, the average government-loaned graduate faces a mountain of debt. Immediate salary deductions (of up to 25%) and years of repayment limit their career options and hinder their early success. That's how your support fuels change through freedom.

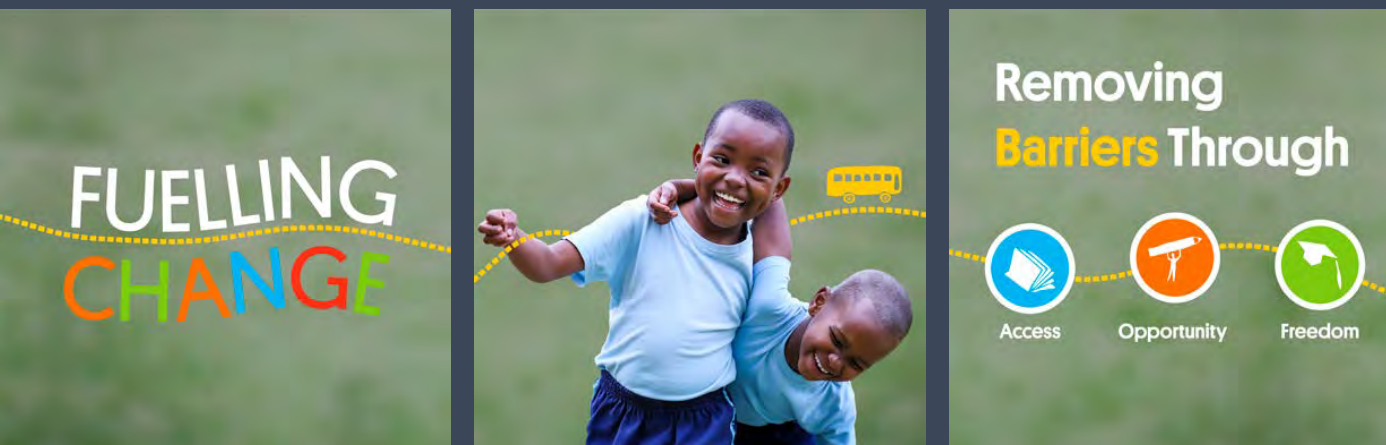

What it looks like fuelling change through freedom

Meet David, a BSJ tertiary graduate on his final year at university. David's passion for sustainability led him to develop a groundbreaking startup that converts waste products into fertilizers. He is one of our many stories of what it means to fuel change through freedom.

BEYOND ST JUDE'S TERTIARY SCHOLARS AND THEIR FIELDS OF STUDY

Where are employed St Jude's alumni working?

Multi-page documents

Books & Newsletter

It's a bit tricky to find a way of including long text projects in a portfolio apart from their multi-page nature most of them are private documents and can't be shared to the public

Luckily for me i have been designing monthly newsletter for the school of St Jude for a little bit over two years now and all of the newsletters are shared in the school's website

Here are the latest three release, **Click on the image to view the PDF version on the website**
